### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claims 1,6-9 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The weight % remains unstated as to its basis-ROJAS, for instance, recites the total bait as containing 2-5% pectin, see Table 2; 3% of total bait. Applicant has not amended or commented on this aspect of the 112 rejection.

#### ***Claim Rejections - 35 USC § 102***

Claims 1,6-9 stand rejected under 35 U.S.C. 102(e) as being anticipated by ROJAS et al 6916469.

The instant LMP is seen as included in the general pectin requirement of ROJAS, which would be seen as composed of both the instant LMP and HMP, not instantly excluded. Further, only diminishingly small portions of the LMP, 0.6-10%, of any of the food (milk powder as dry milk- table 1), composite or insecticide, is required. Thus, the ROJAS pectin would include these small amounts, providing, as of the instant, a gel, rather than sold, bait.

The consisting essentially, & substantially, are not seen to overcome the Rojas reference; the instant invention is not seen as more definitive, as there is no concrete quantification- The claims are in open language.

Applicant's arguments filed 2.21.08 have been fully considered but they are not persuasive. Applicant argues the concentrations are presented; they have no basis presented, however .

Applicant argues Rojas is not for consisting essentially & substantially, of LMP; we see no significant difference..

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
